

Red Cross Announces Goal of 67 Millions, Plans Drive March 1

By the Associated Press
The Red Cross, setting a collection goal of \$67,000,000 for next year, has re-emphasized its requirement that all chapters hold fund-raising campaigns separate from other community drives.
The money is to carry on work in the fiscal year beginning next July 1. The campaign will start March 1.
At the same time the Board of Governors provided for limited Red Cross participation in instances where employers will permit only one annual solicitation for charity.

Five-Day Session Ends.
In a related action the board confirmed an Executive Committee decision that the Detroit chapter "shall not accept any funds allocated to it from the common funds collected by the Torch Fund campaign in Detroit."
These major decisions were made by the board yesterday in concluding a five-day series of meetings.
The decisions were announced by Gen. George C. Marshall, who became head of the organization last October 1.

Limitations Set Up.
The board set up these limitations on chapters participating in one annual, limited solicitation of employees for charitable contributions on a payroll deduction plan where required by employers:
1. The chapter will arrange directly with the employer concerned for the "collection exclusively for the Red Cross of contributions or payroll deductions within the general period of the annual National-wide Red Cross campaign."
2. The arrangement between employer and the chapter shall provide that Red Cross participation in the plan is not to take the place of nor interfere with the conduct of its annual appeal to the community, nor shall it preclude appeals to meet major emergencies.
3. Collections shall be remitted directly by the employer to the chapter and the employer from whom the collections are made shall be so informed.
The resolution outlining the procedure reaffirmed the traditional Red Cross policy of requiring all chapters to hold separate fund campaigns.

Citizens to Pick Officers
The Garrett Park Citizens' Association will nominate officers at its meeting at 8 o'clock tonight at the Garrett Park (Md.) Elementary School.
Weather Report
District of Columbia—Mostly sunny with temperature in low 60s today. Some cloudiness tonight and tomorrow. Lowest tonight about 40 degrees in the city and 35 degrees in the suburbs. Cooler tomorrow.
Maryland and Virginia—Generally fair tonight and tomorrow. Lowest tonight from 35 to 40 degrees in Maryland and from 35 to 42 degrees in Virginia. Cooler tomorrow.
Wind velocity, 16 miles per hour; direction, south-southwest.
Five-Day Forecast for Washington and Vicinity, November 15-20.
The temperature will average about 3 degrees above normal for the period. The normal maximum for the Washington area is 55 degrees, normal minimum 37 degrees. Cooler Wednesday followed by somewhat warmer Thursday and Friday and cooler again over the weekend. Showers about Friday totaling 1/4 inch.

Potomac River Clear at Harpers Ferry and at Great Falls; Shenandoah Clear at Harpers Ferry.

FUGITIVE FROM AN ARMORY—This trailer parked at Fourteenth and F streets N.W. was the subject of a fight today between those who thought it should be displayed at the Armory, with other trailers on exhibition there, and those who were happy to get the additional publicity. (Story on Page A-1.)

Snyder Says Welfare Of U. S. Should Guide Balancing of Budget

By J. A. O'Leary

Treasury Secretary Snyder told Congress today the general welfare of the country should be the "guiding principle" in determining whether the Federal budget should be balanced, show a surplus or a deficit for any given period.
The Treasury head and Budget Director Pace both advised the Joint Economic Committee it is not "feasible" to attempt to formulate "automatic guides" for the Government's over-all taxing-spending policy.
The budget director stressed the importance of "basing budgetary policies on long-run, rather than short-run, considerations."

Hearing Opens Tomorrow.
Their views were contained in answers to a questionnaire sent out by a subcommittee, in preparation for public hearings commencing at 10 a.m. tomorrow on the whole subject of monetary, credit and fiscal policies.
Administration officials estimated recently that the Government will encounter a deficit of about \$5,500,000,000 by the end of the current fiscal year, next June 30.
In the forthcoming hearings, Government taxing and spending will be only one of the subjects explored. The subcommittee, headed by Senator Douglas, Democrat of Illinois, also will delve into the Federal Reserve System and Government lending agencies in the year-to-year economic situation by their credit policies.
His disapproval of the Reconstruction Finance Corp., in answering the questionnaire, rapped a proposal that the Federal Reserve banks take over part of RFC's lending powers.
RFC Chairman Harley Hise, disagreeing flatly with Federal Reserve Board Chairman Thomas B. McCabe, said, "One source of Federal assistance in a particular loan field appears sufficient in the interest of consistent policies and procedure."
Mr. McCabe, asking that Congress authorize the Reserve banks to lend business up to \$500,000,000, recommended to the committee that RFC business loans be confined to cases "not suitable" for private or Federal Reserve bank loans.
The Federal Deposit Insurance Corp. told the committee it is against raising the \$5,000 top limit of insurance it provides for any one's bank account.

Digest of Views Released.
As a groundwork for the hearings, the subcommittee made public a 500-page digest of answers made by other Government officials and by private bankers and economists.
The first witness tomorrow morning will be Alfred Williams of the Federal Reserve Bank of Philadelphia, followed by J. L. Robertson, deputy controller of the currency.
Mr. Snyder told the subcommittee that, since he took office in June, 1946, he has continuously urged "a Federal budget that would permit debt retirement." He recalled that both he and President Truman have regarded it as "essential to reduce the public debt in years of prosperity, such as we have enjoyed since the end of the war." This was one of the reasons Mr. Truman three times vetoed tax-reduction measures.

Philadelphia Hotels Protest Damage by Virginia Grid Fans
By the Associated Press
PHILADELPHIA, Nov. 15.—Philadelphia hotelmen announced today they plan to discuss with the University of Virginia officials the actions of Virginia students and football followers who came here for the game with the University of Pennsylvania November 5.
Bennett E. Tousey, president of the Philadelphia Hotel Association, said the hotelmen decided at a meeting to seek an appointment with President Colgate W. Darden of the Southern University and try to find a "co-operative plan" to avoid "any tremendous damage again."
The students, Mr. Tousey said, came here "steamed up on whiskey and waving Confederate flags. They certainly were not Southern gentlemen."
Can't Estimate Damage.
Several thousand Virginia students piled into Philadelphia for the Pennsylvania game. They made their headquarters at two downtown hotels, the Adelphi and the Benjamin Franklin. Unbeaten Virginia scored a 26-14 upset over Penn.
Mr. Tousey said the hotelmen cannot estimate the extent of the damage, but here are some of the things he said the students did:
Annoyed elevator operators, threw beer in the face of a young "elevator girl," ran around halls "at all hours of the night," tore down fire hose, smashed signs and broke every sand jar in the Adelphi, ripped down glass-edges signs in the lobby.
Mr. Tousey was asked how many Virginia students and alumni were here.
"Too many," he replied.
Won't Take Reservations Again.
He said it was the unanimous opinion of the members of the association that "if Virginia plays here again, we won't take reservations from any one south of Chester."
Chester is in Pennsylvania, 15 miles south of Philadelphia.
Mr. Tousey, who also is manager of the Bellevue-Stratford Hotel, said visitors to the city wrecked considerable equipment when Virginia played Penn in 1947.
"A lot of schools play here and we have many visitors from many parts of the country, but we never saw anything like what happened here the Saturday before last," Mr. Tousey asserted.
Mr. Tousey said a letter is going to Mr. Darden today and that a similar message is being sent to officials at the University of Pennsylvania.
"We feel that the situation is serious enough to discuss with officials of both institutions," he said.
He refused to say whether the association would seek any financial restitution from either university.
Mr. Tousey pointed out that "the general riotous nature of the visit is far more serious than the monetary loss."
There has been no comment on the hotelmen's assertions from any University of Virginia official at Charlottesville.

Citizens Enjoy Photo Results Of Beetle Fight
Members of the Burleigh Citizens' Association enjoyed the results last night of their recent campaign against Japanese beetles.
Mrs. Wynne Johnson displayed some colored slides she and William Godsell had taken last spring in the gardens of residents of the neighborhood. The exhibition was paid for from the surplus of funds from the pest control drive.
J. Carter Fort, Jr., president of the association, noted that the slides would have been far less colorful had local gardeners not organized in advance to deal with the insects.
In its business session the group voted to publicize its meetings by means of posters in neighborhood store windows.
The association met in the Gordon Junior High School, Thirty-fifth and T streets N.W.

Blue Baby Operation Relieves Breathing Of Virginia Boy, 14
Special Dispatch to The Star
BALTIMORE, Nov. 15.—A 14-year-old Mountain Falls (Va.) youth has been saved from almost certain death by an operation performed at Johns Hopkins Hospital.
The youth, Claude Sine, suffered from an ailment in which a defect in the artery carrying blood to his lungs reduced the flow.
His case was different, however, from that of hundreds of "blue babies" whose lives were saved by an operation devised by Dr. Alfred Blalock and Dr. Helen B. Taussig of Johns Hopkins.
For that reason Dr. Blalock stopped aside yesterday and let Dr. Russell C. Brock of Guy's Hospital, London, an exchange professor at Johns Hopkins University, who developed the technique, operate on Claude, whose home is in the Winchester area.
Dr. Brock first took a special instrument and plunged it into the lower chamber of the boy's heart.
He then carefully threaded the instrument through the heart valves toward the stricture at the top, and there knifed through the top-tight valve in the pulmonary artery. This cleared the way for a fuller flow of blood, which will mean more oxygen for Claude.
Two and a half hours later the heart wound had been sewn, the chest closed and Claude was in a special "blue-baby" recovery room.
Hopkins surgeons said the operation was "very satisfactory," but that it carried with it a critical period of 48 hours.

Hotel Night Clerk Robbed Of \$52 by Two Gunmen
Mrs. Martha Edwards, 23, colored, night clerk at the Cadillac Hotel, 1500 Vermont avenue N.W., reported to police she was held up by two armed men early today and robbed of \$52.75.
Police said Mrs. Edwards told them the men, both colored, entered the lobby about 3 a.m. and asked for the money. She said one held a revolver and the other took the cash drawer from under the counter. They over-looked about \$200 in envelopes, she said.
One man was described as about 35 years old, 5 feet 10 inches tall and wearing a brown felt hat and an army jacket. The other man is believed to be about 26 years old, 5 feet 7 inches tall and wearing a light colored cap.

Commuter Protests B. & O. Train Service
A Maryland commuter complained yesterday about the way the Baltimore & Ohio Railroad curtailed passenger train service as a result of the coal strike.
The complaint was filed with the Interstate Commerce Commission by Miss Lydia Heflin of near Barnesville, Md. She protested the suspension of two daily commuter trains between Brunswick, Md., and Washington and asked that these trains be restored.
Miss Heflin's petition noted that the trains were temporarily discontinued October 26 in response to an ICC order requiring a 25 per cent cut in coal-burning train service in view of dwindling coal supplies.
Miss Heflin contended the suspension of two trains on the Brunswick line amounted to a 50 per cent reduction on that line. She said that 16 other steam engine trains operated by B. & O. were not affected and that the result was "unreasonable, discriminatory and inadequate passenger car service" in her area.

Silver Spring Mailman Found Hanged at Home
A 42-year-old Silver Spring mail carrier was found hanged today in the bathroom of his second-floor apartment at 907 Pershing drive. A sash cord was looped over the top of the bathroom door.
The victim was identified by Montgomery County police as Theodore A. Mohler, who had been employed at the Silver Spring Post Office since December, 1943.
Dr. F. J. Brochart, county coroner, issued a certificate of suicide.
Police said the body was found by Mr. Mohler's wife, Ethel, when she returned from a walk. They said she told them her husband had been suffering from sinus for some time and had applied for a transfer to California.
Post Office officials said Mr. Mohler came to Silver Spring from Youngstown, Ohio, where he entered the postal service in 1930. They said he had applied for sick leave today.
Mr. Mohler is also survived by a daughter and stepdaughter.

Los Angeles Girl, 6, Found Slain In Rubbish Heap Near Her Home

Wide Area Searched For Baker, 67, in Brutal Ax Killing

By the Associated Press

LOS ANGELES, Nov. 15.—The mutilated body of 6-year-old Linda Joyce Glucoft was found today in a rubbish heap a few doors from her home, and police said a 67-year-old baker is being sought for questioning.
Wedged in a heap of boxes, a figured Indian blanket tossed carelessly over her, the little girl was found by homicide detectives as the climax of an all-night neighborhood search.
Nearby was a sharp, short-handled ax. In an incinerator a few feet away were her panties and a butcher knife. Detectives said they could not determine immediately whether she had been sexually molested.

West Searched for Man
Detective Sergts. R. T. Reid and Lloyd Baughn, in charge of the inquiry, said the man they seek lived in a house near where the body was found, but disappeared last night, taking his clothing. An all-points police bulletin set in motion a search for him throughout the West.
The officers said Linda Joyce and a granddaughter of the hunted man are almost constant playmates. But they were not together yesterday. Linda was playing alone because her friend had gone to a birthday party.
"It's horrible... unbelievable," screamed Mrs. Lillian Glucoft, the girl's mother and wife of Jules Glucoft, a commercial artist, when she learned of the discovery of her daughter's body.

Neighborhood in Confusion.
The little neighborhood of post-war stucco homes, on the edge of the Crescent Heights section—an established neighborhood of big Spanish-type homes with red tile roofs—was thrown into confusion by the brutal killing. Little knots of people gathered at street corners outside a police cord which kept all away from the backyard where the body was found until 4 a.m.

Baby Girl Born to Polish Woman Aboard DP Plane Over Atlantic
By the Associated Press
PRESTWICK, Scotland, Nov. 15.—If this keeps up, trans-Atlantic air liners are going to have to start carrying bassinets as regular equipment.
A baby girl was born—half way across the Atlantic between Prestwick and Gander, Newfoundland—to a Polish woman today aboard a Scandinavian Airlines plane carrying 60 displaced persons to New York.
She was the second trans-Atlantic "air-born" baby in less than a month. A baby boy was born to Mrs. James C. Parker, wife of a United States Air Force sergeant serving in Germany, in an American Overseas Airlines plane flying the other way October 17.

Boy, 3, and Mother Hurt In Fall Into Greasepit
A 3-year-old boy was in Children's Hospital today with a possible fractured collarbone after he and his mother fell into a garage grease pit yesterday. The mother, Mrs. Mildred Weiss, 31, of 1411 Whittier place N.W., was treated for bruises at Garfield Hospital and released.
Police said Mrs. Weiss and her son, Mark Allen Weiss, were standing beside a grease pit at the Handley Motor Co., 5323 Georgia avenue N.W., when an attendant moved a car to make room for Mrs. Weiss' car. He heard a scream, police said, and found the mother and her son at the bottom of the pit.

Six Receive Citizenship Before Transfer Overseas
Six persons, one a sailor and five the wives of servicemen about to be transferred to distant assignments, yesterday became naturalized Americans in ceremonies presided over by Judge Henry A. Schweinhaut.
The ceremonies were specially arranged so as not to delay citizenship for the applicants.
The new citizens are:
Emmanuel F. Racelis, 27, now stationed at the Naval Training Station, Norfolk, Filipino; Mrs. Gertrude V. Truitt, 26, of 224 Second street S.E., Lithuanian; Mrs. Stephanie G. Cim, 26, of 4515 Thirteenth street N.W., French; Mrs. Leah Harris, 24, of Worcester, Mass.; Mrs. Emma R. Edwards, 34, of 5707 Fourteenth street N.W., Panamanian; and Mrs. Anna M. Oliver, 25, of Groveton, Va., Italian.

Meanwhile, the court naturalization clerk's office disclosed that regular swearing in ceremonies will be conducted on the second Tuesday of each month starting December 13. Ceremonies formerly were held on the first Tuesday of each month.

Barry, Society Jewel Thief, Is Released And Rearrested
By the Associated Press
ATTICA, N. Y., Nov. 15.—Arthur Barry, spectacularly successful society jewel thief and a ringleader of the 1929 Auburn Prison riot, was released from State prison today and immediately rearrested.
As soon as the 59-year-old white-haired convict stepped outside Attica State Prison on parole, he was picked up by three Nassau County detectives.
The detectives executed six old bench warrants from the case that was Barry's downfall—the \$100,000 jewel burglary on the home of financier Jesse L. Livermore 22 years ago.
Barry, a former playmate of millionaires who became a ringleader in a riot at Auburn State Prison on July 28, 1929, hopes that time may have weakened the case against him.
Silent on His Past
Barry won't say much about his past—about the years when police estimated he picked up between \$4,000,000 and \$10,000,000 worth of loot. Only \$50,000 worth ever was recovered.
He summed up his feelings while talking briefly with newsmen outside the prison.
"There's nothing much I can say," he remarked. "I'd just like to forget the whole thing."
When Barry left the prison he was led to the Nassau police car and started on the trip back.
Prison authorities said Barry's record since coming to Attica from Auburn in 1937 was unblemished.
His home town is Worcester, Mass.
Partner Died in Jail
It was the Livermore affair that led to his imprisonment and that of his partner, Earl Monaghan, known as Boston Billy.
Monaghan and Barry were tried on a number of indictments in 1927. Monaghan got 50 years and died in prison.
Barry got only 25 years, but two years later he led the Auburn riot involving 1,700 prisoners. Two men were killed.
Barry escaped and was free for three years before he was retaken in New Jersey. For this escape he got another seven years.
The warrants that still remain charge Barry with first-degree assault, robbery and burglary. But Nassau County authorities don't know how much of a case they have.
Mr. Livermore committed suicide nine years ago. The district attorney and the county judge who participated in the trial are dead.

Young on Vacation
Joseph Young is on vacation. The Federal Spotlight column will be resumed on November 22.
The Federal Spotlight radio program, however, will be heard as usual at 8:15 p.m., every Saturday over WMAL, The Star station.

Barry got only 25 years, but two years later he led the Auburn riot involving 1,700 prisoners. Two men were killed.

Barry escaped and was free for three years before he was retaken in New Jersey. For this escape he got another seven years.

The warrants that still remain charge Barry with first-degree assault, robbery and burglary. But Nassau County authorities don't know how much of a case they have.

Mr. Livermore committed suicide nine years ago. The district attorney and the county judge who participated in the trial are dead.

Young on Vacation
Joseph Young is on vacation. The Federal Spotlight column will be resumed on November 22.

The Federal Spotlight radio program, however, will be heard as usual at 8:15 p.m., every Saturday over WMAL, The Star station.
